USB to 1 RS422/485 port adapter (Isolated)

KEY FEATURES

- Surge protection and optical isolation
- 1 x RS422/485 DB9 male port
- Speed up to 921.6kbps
- No external power supply

Overview

Isolated industrial serial ports on USB connect RS-422 and RS485 devices, used in industrial environment. With RS-485 the data direction is controlled by the port, without further action from the software.

The high speed serial port with the 128 byte FIFO allow high speed communication, even in heavy loaded systems. Unique features reduce the system load. The serial port also allows unusual speed settings like 500.000bps.
